AIM

Aspiring ethical hacker and computer science student with a strong foundation in software engineering and cybersecurity, seeking to leverage technical expertise and innovative problem-solving skills. Eager to contribute to cutting-edge technology projects, collaborate with top-tier professionals, and drive impactful solutions in a dynamic, fast-paced environment.

EXPERIENCE

Cybersecurity Intern

Center for Cyber Security Studies & Research (SecureSphere Foundation)

Aug 2024 - Oct 2024

- Educated people on cybersecurity fundamentals.
- Developed cybersecurity tools.
- Performed social tasks to create cyber scam awareness.

SKILLS

- Advanced Knowledge in C, C++, Python and HTML - CSS.
- Intermediate Knowledge in Networking, Linux, and Ethical Hacking.
- Flutter based Android App Development
- Leadership Skills. Creative Thinking, Content Writing, Problem Solving.
- Proficient in English, Tamil and Telugu.

PROJECTS

Project "Nimir" - Anonymous Reporting Platform for Women's Safety

Developed a secure and user-friendly mobile app designed to provide a safe space for anonymous reporting of incidents related to women's safety.

Project "Thupparivalan"

Information Gathering tool for a Website or IP address using Open Source Tools

Project "Elecxa" - Multi-Vendor Electronics Platform

Developed a user-friendly mobile app connecting local electronics stores with customers.

Project "Thulir" - All in One Student Companion

Developed a user-friendly mobile app Thulir (meaning "sprout" in Tamil), a comprehensive platform designed to revolutionize how college students manage their academic and non-academic lives.

Mini Project on Super Market Sales Analysis

To analyze a Superstore dataset, uncovering market trends, and providing actionable insights for informed decision-making, ultimately fostering sustained growth in the retail domain.

EDUCATION

B. Tech, Computer Science and Business Systems (8.69 CGPA)

Rajalakshmi Engineering College

2022 - 2026

X & XII, Computer Science (94 %)

Velammal Matriculation Hr Sec School

2019 - 2022

ACHIEVEMENTS

Participated and secured **First Prize** in “**Game of Threats**” (Cyber Security - OSINT & CRYPTO based event), conducted in **Revil '23** by **Chennai Institute Of Technology**.

Participated and secured **First Prize** in “**OSINT PLAYGROUND**” (Cyber Security - OSINT based event), conducted in **Drestein 2k23** by **Saveetha Engineering College, Chennai**.

Participated and secured **Second Prize** in “**CICADA 3301**” (Cyber Security - CRYPTO event), conducted in **Technozarre 2024** by **SRMIST, VDP**

Participated and Secured **First Prize** in “**CTF**” conducted in “**Eluminate 2024**” conducted by **Hindustan Institute of Technology**.

Participated and Secured **First Prizes** in “**Data Whiz & Catch Me If You Can**” conducted in “**Invente 2024**” conducted by **Sri Sivasubramania Nadar College of Engineering**.

CERTIFICATIONS

Google Cybersecurity Certificate: Completed the Google Cybersecurity Certificate, focusing on cybersecurity fundamentals, network security, and incident response.

Microsoft Cybersecurity Certificate: Earned the Microsoft Cybersecurity Certificate, emphasizing security operations and practical skills using Microsoft security solutions.

NPTEL Ethical Hacking Course: Completed an Ethical Hacking course through NPTEL, focusing on penetration testing techniques and cybersecurity principles.

Workday Basics Certification: Completed a certification in Workday Basics, covering foundational concepts and functionalities of the Workday platform.

CEH v12 Preparation: Actively preparing for the CEH v12 (Certified Ethical Hacker) exam to enhance ethical hacking skills and knowledge in cybersecurity.
